

by sports, including horse-racing, and all of it seemed to be greatly enjoyed. The celebration was concluded by a dance given especially for the natives, but in which nearly all Vermilion took part.

4th Sept.

At Peace River Post

IT was not considered practicable at this point to encourage extensive celebrations outside the Shaftsbury Reserve, as it would have attracted attendance of natives from districts where similar celebrations were being held at some time or other. We equipped the son of the late chief with a substantial grubstake, and through an interpreter explained the purpose of the celebrations which the Company desired them to participate in, and invited the Indians and their neighboring friends to have a big feast and make merry in the way they themselves preferred, upon their own reserve.

I am given to understand that a quiet celebration was held on the Reserve amongst the few remaining Indians and some neighboring friends.

30th Aug.

At Fort St. James, B.C.

THE Celebrations were held on the 4th November, in connection with the 250th Anniversary. The weather was ideal. There was quite a representative gathering from all the outlying points, such as Tachi and Pinche.

The Indians were gathered here attending to their devotional duties, in connection with "Big Sunday." We took this opportunity of sending out invitations to all, including the white population, who also were well represented and who entered heartily into the spirit of the affair and helped to make it a success.

Invitations had announced luncheon for noon. 10 a.m. saw the Indians beginning to arrive and gathering around, eagerly looking forward to the repast promised them. Punctually at the hour set the seating began, about seventy-five sitting down to a well-supplied table.

During the luncheon, Mr. Murray proposed the toast to "The King," which was suitably replied to by Mr. Fitzsimons. Mr. D. Hoyt next proposed the toast of the "Hudson's Bay Company" which was replied to by the

Post Manager. Mr. Ferrier proposing the toast of the "Indians," was replied to by their chief, Louis Billy. The old assistant chief Joseph Prince then proposed the toast of the "White Population" (adding that the H.B.C. was here long before the white man!)

At Babine, B.C.

DINNER was held June 30th with all the Babine and Bear Lake Indians assembled at the Post.

At one o'clock 135 men attended dinner in a suitably decorated hall. Speeches were made by manager and several Indians; 15 white customers attended. After this 35 children had their feast. At three o'clock, 50 women with babies were entertained by manager's wife in front of dwelling house, this making the total number of people entertained about 220. There was a baseball game at 4 o'clock.

Long Lake, Ont., Post News

MR. N. FINLAYSON, H.B.M., who has seen service at this Post for over forty years, had a very narrow escape from drowning some two weeks ago when his dogs and sleigh broke through the new ice. His son, who saw the mishap, went for a canoe, but Mr. Finlayson succeeded in getting out before assistance arrived. How he managed to climb on the slippery ice is a mystery, especially as he weighs 220 pounds and is over sixty years of age. No doubt he *kept cool* and did not lose his head.

A similar instance, with a sad ending, took place on the vicinity of the Post recently, when the chief of our band of Indians broke through ice whilst crossing Fleming lake with his dogs. He and all of the dogs were drowned.

Missing "Links"

The lynx, very scarce throughout this district last outfit (year), have again failed to appear in any numbers, though the rabbits are quite plentiful again.

THE Indians have all been outfitted and away to their hunting grounds for some weeks. The fall was an exceptionally fine and dry season and the water is very low. The first issue of *The Beaver* was received with enthusiasm and will no doubt be still more appreciated when all the posts in the district get their contributions in. The brochure, received at the same time, is highly appreciated and is of absorbing interest from cover to cover. —16th Oct.

MR. H. M. S. COTTER was so well pleased with the good times he had at Prince Albert riding round in Mr. Barker's car that he has serious thoughts of requisitioning for one to be used getting round on the mud flats at Cumberland House. He thinks a car would be much better than a canoe.

Only Providential Insurance

A farmer in a small way walked into the offices of one of the great fire insurance companies and intimated that he wished to insure his barn and a couple of hay stacks.

"What facilities have you for extinguishing a fire in your village?" inquired the superintendent of the office.

The man scratched his head and pondered over the matter for a little while. Eventually he answered: "Well it sometimes rains."

Why This Cook Draws \$10,000 a Year

Mr. Vanderbilt is said to pay his cook \$10,000 a year, because he can cook better than any other man in America. If Monsieur Saucegravi could cook tolerably well, and shoot a little, and speak three languages tolerably well, and keep books fairly, and sing some, and understand gardening pretty well, and could preach a fair sort of a sermon, and knew something about horses, and could telegraph a little, and could do light porter's work, and could read proof tolerably well, and could do plain house and sign painting, and had once run for the legislature and knew how to weigh hay, he would not get \$10,000 a year for it. He gets that just because he knows how to cook. It wouldn't make a cent's difference in his salary if he thought the world was flat and that it went about its orbit on wheels. There's nothing like knowing your business through and through from withers to hoof, whether you know anything else or not. What's the good of knowing everything? A great financier once said to a youth, "What is your greatest ambition?" "To be a rich man," was the reply. "That's where you're a fool," answered the financier, "you ought to strive to be the greatest in your line in the world, and you can't help being rich." These are days of specialists. Try to be an expert in your particular work. Endeavor to do it more quickly and better than anyone else.
